

RESOLUTION #36

REQUESTING FLOOD PLAIN INFORMATION SURVEY

WHEREAS, the City of Bethel has historically experienced flooding conditions which have damaged homes and public buildings, and

WHEREAS, no technical flood plain knowledge is available to the City for the orderly planning and development of the community roads, drainage systems, or further subdivisions, and

WHEREAS, a Flood Plain Information survey is available under the Corps of Engineers with approval of the State Department of Natural Resources, and

WHEREAS, it is both in the interests and within the powers of the City to request this information survey,

BE IT THEREFORE RESOLVED BY THE COUNCIL OF THE CITY OF BETHEL

That an application for this information survey be drawn up for approval by the State Department of Natural Resources and the Corps of Engineers, and

That said application of the City of Bethel be given consideration and priority by the Department and the Corps for approval at the earliest date possible, upon their reception of this application.

Passed and Approved this 10 day of July, 1967, in
Bethel, Alaska.

By a vote of 5 ayes and 2 nays.
