I. CALL TO ORDER:

A regular Public Works Committee Meeting was held on April 19, 2017 at the council chambers of the City Hall, Bethel, Alaska. Joseph Klejka called the meeting to order at 6:34 pm.

II. ROLL CALL:

Comprising a quorum of the committee, the following were present: Joseph Klejka, Jennifer Dobson, Byron Maczynski, Scott Guinn, and Robert Champagne.

Excused Absent: Public Works Director, Bill Arnold

Also Present:

Committee Recorder, Pauline Boratko

III. PEOPLE TO BE HEARD: none

IV. APPROVAL OF AGENDA:

MOVED BY:	Jennifer Dobson	Motion to approve the agenda.
SECONDED BY:	Robert Champagne	
VOTE ON MOTION	Motion carried by unanimous vote.	

V. APPROVAL OF MINUTES:

MOVED BY:	Jennifer Dobson	Motion to approve minutes for February and March 2017 meetings.
SECONDED BY:	Byron Maczynski	
VOTE ON MOTION	Motion carried by unanimous vote.	

VI. SPECIAL ORDER OF BUSINESS: A short discussion occurred about the 3% inflation increase in water and sewer utilities rates that was approved during Joe Klejka's time as a Council Member. This increase takes place every July 1st and is largely responsible for the water and sewer enterprise fund being in the black over the last two years. The City's current grant/loan with USDA requires the City to maintain the 3% increase until the sewer lagoon rehabilitation project is completed.

One comment on the Water and Sewer Utilities Business Plan concerned the use of baffles to reduce wave action at the lagoon. The waves were responsible for causing erosion to the berms and if baffles were installed, the waves would be reduced.

One committee member asked about the risks associated with the water and sewer system. The risks could be addressed in the plan.

VII. UNFINISHED BUSINESS:

- A.** Institutional Corridor Piped Water Supply Project: The project went out for bid, a company has been selected, and that information will go to the council for review.
- B.** Sewer Lagoon- PER (Preliminary Engineering Report) and ER (Environmental Report) for Truck Dump site and other options: Both the USDA contracts and the dredging contracts has been approved by council and is moving forward.
- C.** Leveling of the Bethel Heights Water Treatment Plant Building: In the past six months, the building has moved about 4 inches. It has been suggested to have an engineer evaluate the extent of damage to determine what should be done.
- D.** Clarification of BMC Codes: Jennifer Dobson will get with Bill Arnold and Patty Burley to discuss, write, and reword the BMC codes.

VIII. NEW BUSINESS:

- A.** Ridgecrest Drive Road Update: The road needs to be repaired as part of the grant agreement and plans are being made to move forward with that.
- B.** Snow Removal from Neighborhoods: Scott Guinn suggested that snow should be dumped in a certain spot instead of the people’s driveways and the sides of the roads. This is to avoid excess water and muddy roads during melt up.
- C.** Landfill closure study and new landfill site: It has been suggested that the city look into a backup plan for a landfill and lagoon sites.

IX. DIRECTOR’S REPORT: Director of Public Works, Bill Arnold was unavailable to give report.

towing, storage, and other charges that may have accrued. The vessel/property is at the following location:

The vessel/property has been removed and you may recover possession of the vessel/property at the following location:

The vessel/property has been destroyed. You may direct any inquiries to the City of Bethel Port Director.

The following action has been taken, and any option you may have is described below:

If you believe the vessel/property was improperly impounded, removed, or otherwise abated, you may:

- i. In the case of an impoundment, recover possession of the vessel by paying any towing, storage, or other charges that have accrued, and you may claim a refund or reimbursement by filing a demand (on a form provided by the City) for an administrative hearing before a hearing officer as to whether the Port Director had a sufficient factual and legal basis to impound the vessel; or
- ii. In the case of an impoundment, you may demand return of the vessel without paying the towing, storage, or other charges by filing a demand (on a form provided by the City) for an administrative hearing before a hearing officer as to whether the Port Director had a sufficient factual and legal basis to impound the vessel; or

14.08.050 Post-Removal Hearing

A. If demand is timely made, the owner or person entitled to possession of the vessel or property is entitled to an administrative hearing to determine whether there was a sufficient factual and legal basis for the action to impound, remove, or otherwise abate the item in question. To be entitled to such a hearing, a written demand must be filed with the City Clerk:

1. Within five (5) workdays after you learned or reasonably should have learned that your vessel or property was impounded, removed, or otherwise abated or

2. Within fifteen (15) workdays after the City mailed notice to the vessel/property owner of the action taken, whichever is earlier.
3. If you fail to make a timely request for a hearing you will lose all right to challenge the sufficiency of the basis for the action taken.
- B. The hearing will be held within seven (7) calendar days after the filing of a written demand, not including Saturdays, Sundays and City holidays, unless the person demanding the hearing waives a speedy hearing.
- C. The hearing officer shall not be bound by formal rules of evidence. A copy of the Port Director's written determination that a public nuisance exists will constitute prima facie proof of a sufficient factual and legal basis for the action. The burden will be on the vessel owner to prove by a preponderance of the evidence that there was not sufficient factual or legal basis for impounding, removing, or otherwise abating the vessel or property.
- D. At the conclusion of the hearing, the hearing officer shall prepare a written decision, including the reasons for the decision. A copy of such decision shall be provided to the person demanding the hearing and the owner of the vessel or property. The hearing officer's decision in no way affects any criminal charges that may be pending. The decision of the hearing officer is final and may only be appealed to the Superior Court.
- E. A determination by the hearing officer that there was not a sufficient factual or legal basis for the action taken will require the release of the vessel to the owner or other person entitled to possession without payment of the towing, storage, or the accrued charges, and will entitle the person to a refund or reimbursement by the City if the charges have already been paid. If the hearing officer determines there was a sufficient factual and legal basis for the action taken, the Port Director may proceed to dispose of the vessel by sale according to BMC 14.10.090 or the Port Director may destroy or otherwise dispose of the vessel or property without sale if he makes a good faith determination that the value of the vessel or property does not exceed the costs of towing, storage, sale, and other harbor charges accrued against the vessel or property.

RE: Justification for Budget Modification to E-911 MSA

The City of Bethel received a State Homeland Security Grant to purchase an Airbus DS Communications VESTA 9-1-1 system, which included software, firmware, and hardware. The purchase and installation was completed by ProComm Alaska, an Anchorage company approved as a sole source vendor and installer by the City of Bethel and the Alaska Division of Homeland Security and Emergency Management. The system was installed, tested, commissioned, and dispatchers were trained by July 31, 2016.

The City of Bethel approved a Managed Service Agreement (MSA) with ProComm Alaska for a period of 5 years for a total cost of \$203,335.00 with annual payments of \$40,667.00 on November 8, 2016. A budget modification was approved and \$40,677.00 was subsequently transferred to the E 9-1-1 Professional Service Account (41-50-649) for FY 17.

A language change was requested in the MSA agreement by the City, which resulted in a change to the scheduled payments. ProComm Alaska agreed to the language change, but required a payment schedule change. The cost of the 5-year MSA agreement remains the same at 203,355. The yearly installment payment changed to \$100,000 for the first year, and 25,833.75 each year for the remaining four years.

A budget modification and transfer of \$59,333 (affecting Account #41-50-649) is required to continue and maintain our MSA with ProComm Alaska. The current fund balance in the E-911 (41-50) is approximately \$323,581.

Summary Statement:

As part of the City's efforts to bring old agreements into compliance with the procurement codes, in January of 2017, the City of Bethel issued an RFP for General Insurance Broker Services. Two addenda were issued during the time the RFP was open. The first addenda extended all deadlines. The second addenda answered questions about current coverages for the City, clarified that the transmittal and cover letter were the same and answered that notice to the current carrier had not been provided.

Four responses were ultimately received. During the RFP period, no protests were received. The RFP's were scored by a panel of three (3) employees. None of the scorers knew the proposed price. Before reviewing the scores, the purchasing agent reviewed the prices submitted and scored them per the terms of the RFP: lowest price earning the highest points and highest price earning the lowest points. Ultimately the purchasing agent combined the points assigned by the reviewers to the points assigned to the points.

Based on the scores, a Notice of Intent to Award was issued on April 4, 2017 to the top scoring respondent. A protest to the award was timely filed on April 10. On April 17, the City Manager ruled that a Stay of Award was moot as a decision would be forthcoming before the Council would even consider an award. On April 18, the City Manager issued his decision, in writing, on the appeal.

Memorandum

To: Bethel City Council

From: Peter Williams, City Manager

Date: May 2, 2017

Re: Justification for Budget Modification Request – Classification Study

On April 12, 2016, an Action Memorandum directed Administration to submit a Request for Proposals for an Employee Classification Study.

After two (2) failed attempts: one for failure to follow instructions and one for price; the City was able to negotiate with the last successful proposer to develop a targeted approach that focuses on the critical portions of aligning positions for better PERS protection and classification.

Instead of the original \$101,000 price tag, this portion of the project will focus on a single portion of the original plan and will be capped at \$15,000 even if the number of hours exceeds those anticipated. The end product is a review and re-alignment of all job descriptions in the City for a stronger classification plan that would better insulate the City from PERS termination studies.

Ms. Lori Strickler
City of Bethel
P.O. Box 1735
Bethel, AK 99559

Dear Ms. Strickler,

Governor Walker and I firmly believe in the Alaska Division of Elections' core mission: to ensure that every eligible Alaskan has a meaningful opportunity to cast a ballot, have their vote count, and to conduct impartial, secure, and accurate elections. While the integrity of Alaska's electoral system is stronger than ever, we are committed to insuring Alaska's electoral system will serve all eligible Alaskan voters in the years to come.

Over the last few years, many innovative improvements have been made to the efficiency, accessibility, and security of the state's electoral process. These improvements include implementation of the Toyukak settlement that resulted in expanded language assistance to Alaska Native voters, the Online Voter Registration System (voterregistration.alaska.gov) which allows applicants to register to vote or update their registration information without any form of paper document, and My Voter Information (myvoterinformation.alaska.gov) – a new web-based portal for voters to use to look up the status of their registration and absentee ballot. With passage of the bi-partisan Senate Bill 9, Alaska was allowed to join the Election Registration Information Center (ERIC), a multistate partnership that will increase the accuracy and efficiency of our voter registration system. The Division of Elections is now working to implement the Permanent Fund Voter Registration (15PFVR) initiative, which was approved by voters in November 2016, and allows PFD applicants to automatically be registered to vote.

However, as you are aware, our voting equipment and ballot tabulation system is almost 20 years old. Preliminary estimate of replacement is over \$6 million. Funding from the 2002 Help America Vote Act (HAVA) is dwindling and the State is facing a \$3 billion deficit.

This year we have an opportunity to focus on the challenges in the administration of elections while maintaining the public's trust and confidence during the state's fiscal crisis. In an effort to facilitate and advance policy discussions about the future of election administration, I would like to invite you to be a member of an Elections Policy Work Group that will meet in the Atwood Building in Anchorage on Monday, May 22nd from 5-7 p.m. and Tuesday, May 23rd from 9 a.m.- 5 p.m.

Ms. Lori Strickler

The purpose of the Election Policy Work Group is to review current election fiscal and policy challenges, create dialogue on topics that include voting technology, administration of elections, help identify potential cost savings measures, and make recommendations on fiscal and policy related issues. Joining us will be Executive Director of the Center for Election Innovation and Research, David Becker, and ERIC Executive Director John Lindback.

We know you are very busy and we want to make sure that you can participate in a meaningful way. While the May meeting requires your attendance, future meetings will be facilitated via video and phone conference. More background information and a timeline will be sent once you confirm your participation.

Please join us to hear about the fiscal and policy challenges facing the Division of Elections and help determine the future of elections in Alaska.

For further information, and to RSVP, please contact the Director of the Division of Elections, Josie Bahnke, at 907-465-4611 or at josie.bahnke@alaska.gov.

I look forward to seeing you in May.

Sincerely,

Byron I. Mallott

CITY OF BETHEL
FINANCIAL REPORT
Bank and Investment Accounts

A. Introduction

The City of Bethel operates under a central treasury. A central treasury concentrates cash in order to maximize the return on the investments and to provide adequate liquidity for planned cash flows. Therefore, cash accounts do not correspond to “funds” in the City’s financial records. All transactions between funds are accounted for in interfund receivables and payables which are also called “Due To” and “Due From” accounts.

Cash and investments accounts marked with an asterisk are not part of the central treasury. These accounts are legally restricted from being part of the central treasury or segregated because of policy or purpose.

Investments in the Bethel Endowment Fund are physically segregated by ordinance. The assets of this fund are invested in accounts with Piper Jaffray Investments.

All investments are categorized as “Category 1” for credit risk according the categories described in Governmental Accounting Standards Board Statement No. 3, *Deposits with Financial Institutions, Investments [Including Repurchase Agreements], and Reverse Repurchase Agreements*. This means that the City’s investments are either insured or registered, or that the securities are held by the City or its agent in the City’s name. Category 1 investments contain less credit risk than other categories; therefore, City funds are invested with the lowest reasonable credit risk. The City’s investments are earning a competitive yield.

We are in support of the planning commissions denial of issuing a liquor license for Steven Chung in the City of Bethel. Reasons being that when one person went to hospital just recently encountered 3 or 4 individuals waiting in ER under influence of alcohol. Again it is evident that villages are stranded in Bethel due to liquor. Our people are suffering due to misuse of alcohol, things such as domestic violence occurring and families are displaced. These people who want licenses are not natives of the YK Delta. They are just hurting our people for the sake of money.

Cordially,

Wassilie Pleasant/President

City Manager's Report

CITY MANAGERS REPORT

April 26 to May 2, 2017

Intuitional Corridor- Public Works Director, City Attorney tele-conferenced with DOWL's project management team to discuss the progress on the easements needed for the project. Hopefully we have the easements in place by the end of May. The contract has been signed for Phase I to install 160 helicals between the city Water Treatment Plant and the Highway. DOWL was on site April 27th.

Sewer Lagoon/Jetty Project- Contracts were signed with our Project Manager, CH2M, to design and manage the construction of the sewer lagoon and the jetty. CH2M will visit the site on May 9th which is when the first step of the construction will begin. Public Works, CH2M and Admin. will hold weekly meetings throughout the duration of the project.

Finance Dept.- been involved reviewing the budgets as they are completed, reviewing balance of various funds

Port – Project management team and the port employees meet to discuss the next steps in regards to the construction of the Ports Ops. Ctr. Will meet every Tues till the end of the project.

Bethel Bank Stabilization Project – Checks for the purchase of the Active and Jung parcels were processed. Mr. Jungs was sent out via mail. One of the Active brothers have not signed all of the documents yet and we holding the check till he does. The USACE is being kept in the loop so we can receive credit for the purchases.

Ridgecrest Dr.- Setting up a tele-conference with the DOT, PW Director and myself discussing some of the details of the project.

Courthouse Lease-waiting for their response to our proposal that was sent to them on April, 19th.

Pinky's Park-Public Works was given the task of extending the soccer/football field 50 ft. and ask to hydro seed the field.

DEC- worked with Public Works and Planning Depts. to establish a site at 310 4th Ave (old Nat. Gd. Armory) for the DEC to monitor the air in Bethel for next 5yrs. A lease for the site should be on the May 9 council agenda. The DEC is applying for the grant funds for the Avenues project. The first step DEC will work on is to complete the engineering and environmental reports needed for the projects.

DOT-we discussed what needs the City has regarding Safe Streets. The idea is to have the State establish a program that the STIP would fund. Discussed the STIP program for roads. There two projects that come to mind for the next application for road

improvements and they are Highway Improvements. Where and how much of the highway would have to be determined. For instance, would repair the section between the Airport and Watson Corner or perhaps go beyond Watsons corner. H-Marker lake road. and the match for each project is approximately 9.3%.

Enterprise Funds- discussed the use of the enterprise funds with the Fin. D and the City Attorney. We are seeking advice outside advice from other municipalities and CFO's. The idea of using these funds for other purposes is probably doable. A process needs to developed in code and process passable with the auditors.

GAO- reviewed with the PW director and myself the assistance programs available for water and sewer programs. We mainly deal with the USDA and the DEC. We voiced our concerns about the length of time it took us to complete the funding process. The "Letter of Conditions is hundreds of pages long and the contract was a template 10 pages long with 80 pages of changes. And has taken over a year to complete. We also discussed that in order to apply for new piping that the existing infrastructure has to be contaminated.

Vehicles & Equipment

- Braun Northwest started building Medic-6. The HEMI gasoline-powered Dodge Heavy Duty chassis is expected to perform well in rough Bethel road conditions.
- Specifications and pricing are complete for a new ladder truck and tanker for the department. Funding/financing options are being sought for one or both of these vehicles should our capital request to the State be unsuccessful.
- Our newest ambulance Medic 5 would not start at least two times this month. Repairs of this vehicle have consumed much of our outside vehicle service budget during FY 17.
- The Department's 1980 Ladder Truck is currently out of service due to a non-working boom and defunct pump.
- Engine three, our 1986 Grumman reserve pumper, is still out of service to repair a leaking tank, relief valve, tank to pump valve and pump packing. This work is being performed by department staff. Fire fighters began descaling the tank with hand electric grinders. A sandblaster was ordered to complete clean the water tank in preparation for epoxy coating. Failure to treat the water tank in this fashion would result in continued pitting and eventual failure.

Budget/Financial

- The department is working diligently on our FY 18 budget proposal.
- An ambulance fee increase, including fees for mileage, was submitted to the Council and Manager for review. The item was removed from the Council's agenda.
- Demands on personnel, career and volunteer have been significant this year with unprecedented call volume. The department is using off duty staff on standby and call back pay to cover open slots in the shifts and provide a minimum of two personnel on duty at all times. Callback and FLSA overtime budgets are being drained because of this.

Grants

- The Department purchased 10 portable radios through the 2016 Homeland Security grant totaling \$39,300. Purchase documentation was sent to the Grants Manager.
- Three portable radios were purchased under an \$11,000 VFA grant. These were sent out to ProComm Alaska for programming.

- The Department received \$7,500 in funding for portable radios through the 2017 VFA grant
- The Department applied to the FEMA Assistance to Firefighters Grant for 38 sets of firefighter turnouts. The request totaled \$102,000 with a match of only 5%.

Staffing/recruitment

- The Department is fully staffed, but needs an additional FTE position and volunteers to meet demand.
- Volunteer Firefighters and EMT's are needed. If you or someone you know might be interested, please invite them to contact the Fire Chief or Fire Captain. Applications are available at the fire station or can be emailed to potential applicants.

MEMORANDUM

DATE: May 2, 2017

TO: Peter Williams, City Manager

FROM: John Sargent, Grant Manager

SUBJECT: Grant Manager's Report – May 9, 2017 Bethel City Council Meeting

Grant Projects

Sewage Lagoon Rehabilitation

The City is working with engineer firm CH2M to finalize two contracts, one for dredging and baffle replacement and one to repair the sewer discharge jetty. Each contract has been approved by the funding agency sponsoring that part of the work. The Alaska Department of Environmental Conservation, Village Safe Water Program (VSW), is funding the dredging. USDA-Rural Development is funding the repairs to the discharge jetty. Bethel City Council approved the contracts at their last meeting on April 25, 2017.

I prepared a Water and Sewer Utilities Business Plan and submitted it to VSW for their review and approval. The Public Works Committee had a chance to review it and make comments. Their comments were addressed in the plan and documentation of public input was also included. The preparation of this plan is a requirement before the City can be awarded sewer lagoon construction funds.

CH2M is coming to Bethel to oversee the drilling of test holes near the jetty as part of its geotechnical work. The engineer firm must rapidly design the dredging project so that the City can go out to bid and have a dredging company complete \$2.2 million worth of work this summer. These funds expire June 30, 2018.

Grant Application Submitted

I prepared and submitted the City's Community Service Patrol grant application for the same amount of money as last year (\$323,081) with the City's in-kind match at \$32,308.

Grant Application Preparation

As soon as the opportunity becomes available, I will work with the Public Works Department to provide the VSW engineer with all the information needed to apply for a preliminary engineering report and an environmental report for "The Avenues" piped water and sewer project.

Transit System

The City still has approved grants to purchase two buses for use in the transit system. There is a State Match Grant of ~\$13,000 available for bus purchases also. The City is able to purchase the buses from the State of Washington's bid contract, but must have the will to do so.

Subject: IT Director's Report

Current Events

- **Full City Wireless Access:** This month I have used remaining funds in my equipment budget to purchase and install wireless access points for all city buildings where we have computers being used. Wireless coverage is found in City Hall, the police department, fire department, landfill office, city-sub water plant, Bethel heights water plant, public works, transit building, utility maintenance, and the port office. Access points are managed and are programmed to shut off in the evening hours for buildings that do not operate 24 hours a day. Even if wireless access is not necessary in one of the given buildings, the access point also allows me security options on the network equipment installed at each site.
- **Police Department Projects:** The police department has been undergoing three separate projects in recent months: updated wireless deployment, the installation of a new capacity server to address data storage needs, and the installation of a new internal security system. In April, the current phases of the capacity server and the wireless deployment projects have been completed. Further phases may come into play later on when more funding becomes available. The building's new surveillance system has been installed but is not yet working completely. I'm working with AIT to address the matters and work out the kinks. I expect this final project to be complete in the early half of May. Additional cameras will follow on a latter phase when funding becomes available.
- **Budget Complete:** The IT department has completed its budget process after an official meeting with City Council. Now I have solid numbers to work with and can begin taking steps towards the changes and upgrades that will be pursued in FY18.

Future Plans

- **Remote Technical Support Team:** With council's approval for me to try the implementation of a remote support team in lieu of a physical IT technician, I will work towards completing the RFP process and selecting a viable candidate with a contract to start in early FY18.
- **City Hall Capacity Server:** Council has approved the capital project to add a new capacity server at City Hall to address its current and future data storage needs. I will look to have this completed in early FY18.
- **City Hall Server Room Expansion:** Council has approved a capital project to purchase new equipment for the server room to bring it up to industry standards and lay the ground work for systems that will require rack space at some point within FY18. I will look to have this completed in the first quarter of FY18.

CITY OF BETHEL

Bethel, Alaska 99559

Phone: 907-543-2047

TO: City Manager
FROM: Human Resources
SUBJECT: March/April 2017 Manager Report

DATE: April 28, 2017

The following identifies significant projects that were in addition to general personnel action-based activities (hiring, terminations, disciplinary, etc.):

Training/Employee Education

Created and distributed first City-wide HR newsletter to employees. This edition focused on opportunities for saving through pre-tax Deferred Compensation programs, the PERS Voluntary Savings Program and the value of reviewing and/or updating the W4 form.

Researched opportunities and set up online training access for remedial or refresher training for hauled services drivers and mechanics. The courses focus on safety and risk management.

All employees have access to safety-focused training courses as well as a wide catalog of personnel management and other workplace development skill building. HR can provide specific access upon request by a supervisor.

Health Care

Completed all required research and presentations to effect necessary benefit renewals by the April 1st contract deadline (Stop-loss, Third Party Administrator for health benefits and Life/Disability insurance).

HR transitioned all current employees to the new Life/Disability carrier, Hartford insurance, effective April 1. HR also established access and online accounts for the Finance Director and Payroll on Hartford's EmployerView system.

For health care, open enrollment has been moved to July in order to bring benefits renewals in line with the City's fiscal year. This June will function as a mass open enrollment where all employees will be required to re-enroll for health care benefits. Worked with the City's broker, the Wilson Agency, to schedule dates for mandatory employee training on health care benefits on the 5th and 6th of June. All employees will be notified closer to the scheduled presentations.

Also tracking HB23 in the Alaska Legislature, which provides for continued health benefits to dependents of peace officers killed in the line of duty. This bill has a fiscal and opt-in component for municipalities which may need to be addressed at the City level.

Job Descriptions/Classification

Created/revised job descriptions for Water/Wastewater Utilities Foreman, Admin Assistant II (as distinct from the Admin Assistant I level).

Following the termination study for Transit, HR is continuing to review job descriptions, position classifications and our PERS requirements to try and minimize similar issues in the future.

Recruitment

Met with a representative from the Association of Village Presidents regarding a new workforce development program they are initiating. The City's concerns apparently echoed those obtained from all other Bethel employers: lack of specific skills, attendance/workplace expectations and ability to pass a background check.

Coordinated with LKSD regarding a new summer work program in which high school students would be paid for up to six weeks to work for a local employer. As all budgeted temporary positions are likely to be filled before the program is finalized, if there are any interested students, HR will work with them and the City's Department Heads to identify relevant, short-term functions with the City to provide the students with work experience at no costs to the City.

Attended both the Mat-Su regional and the Fairbanks job fair. While the attendance at both were impressive, job seekers did not appear to have the qualifications currently needed by the City, particularly since the events took place at a time when the City has its fewest number of vacancies in a long period of time.

Most valuable was the ability to connect with Job Center employees from other regions and the Alaska Job Corps program. The City has hired employees trained through the Alaska Job Corps and many of their enrollees are from the Bethel region or have family in the area. HR has developed a contact at the Corps that will advise their students of relevant openings in Bethel.

A number of individuals were interested in Bethel's "career path to Police Officer", in which an individual is hired into a Community Service level position and through on the job training, mentoring, and strong performance, can be sponsored for the Department of Public Safety Academy in Sitka. If clearly defined and promoted, this could be a very valuable program for Bethel, particularly with respect to maintaining necessary public safety service levels.

Also participated in the Alaska's Institute of Technology (AVTEC)'s career fair in Seward. The City received several resumes from students enrolled in the diesel mechanic program who are from western Alaska. These resumes were passed on to Public Works to reach out and foster potential candidates. Many AVTEC students indicated they were enrolled in training to "get hired for the hospital project" which indicates a willingness for these students to return to work in the region.

Applications and Hiring

The "Request to Hire" form has successfully been implemented City-wide for all new hires. The process ensures new employees are hired at a step appropriate for their qualifications and that all candidates are assessed based on the same objective criteria. In addition, the process ensures that the Finance Director has an opportunity to review the proposed salary in relation to the budget and available funds.

Unadvertised vacancies during the period included:

- Water and Wastewater Utilities Foreman (advertised as of May 1)
- Admin Assistant II – Police Dept. (advertised as of May 1)
- Admin Assistant I – Administration
- IT Technician
- City Dock Attendant (Current employee serving as Acting Port Director)

A total of 49 applications were received during March and April of 2017 for advertised positions.

Transit Program

Completed research on termination costs/process and provided detailed information to Manager.

Assisted Grants and Transit Managers in preparing for the upcoming Transit Compliance and Performance Review. Provided necessary documents for the desk review and identified potential discrepancies between program requirements and the status of those requirements when involving personnel or the HR office.

SUBJECT: April 2017 Monthly Report

Personnel:

I am pleased to announce that all our vacant Support Personnel position have been filled this month.

We welcomed Brandon Oulton as a rehire Community Service Officer, Martin Oulton as a new Community Service Patrol Officer and Dimitri Hoover as a new Public Safety Dispatcher.

Currently both Brandon and Martin have completed their field training in their respective positions and are working on their own with supervision.

We anticipate filling at least one of our vacant Police Officer positions soon and extending at least two conditional offers of employment for Police Officer recruits this month.

We are hopeful that the conditional offers will be successful, and two potential police recruits should be attending the July 2017 academy.

Total Current Vacancies:

Lieutenant (1)
Police Officer (5)

Training:

CSO William Charles continues his training in Sitka, Alaska attending the Alaska Law Enforcement Training Academy (ALET 1701). William will be graduating from the Academy on June 9th, 2017.

This month Public Safety Dispatch Supervisor Natalie Hayes attended UCR/NBER Training in Anchorage. This training instructed attendees on the new federal requirement for documentation of crime reporting. The documentation on UCR/NBER allows participating agencies to meet federal requirements for a variety of Federal Grant Funding.

Additionally, Public Safety Dispatcher Darline Kiunya attended APSIN/NCIC training in Anchorage. This training completes her basic dispatcher training for the Bethel Police Department.

Of Interest:

During this reporting period, new police mobile radios were installed in all police vehicles. These new mobile radios replaced older and non-serviceable models we were operating. Additionally, a mobile police/fire radio was installed in the Fire Rescue Boat.

We are currently gearing up for several IT/Infrastructure projects.

Last month we ordered a replacement for our voice and call logger/recorder system, we anticipate the equipment will be here by the end of the month and ready to go by the beginning of June 2017.

We are scheduling ProComm Alaska to conduct a site visit, to conduct some preventative maintenance on our Motorola Elite dispatch consoles, and troubleshoot some reception issues our patrol personnel are experiencing. We are anticipating they will be here by the end of May or early June.

A request was made regarding call for service statistic for the Pinky's Park area. I have attached statistics regarding call volumes in this area from February 1, 2017 to April 27, 2017.

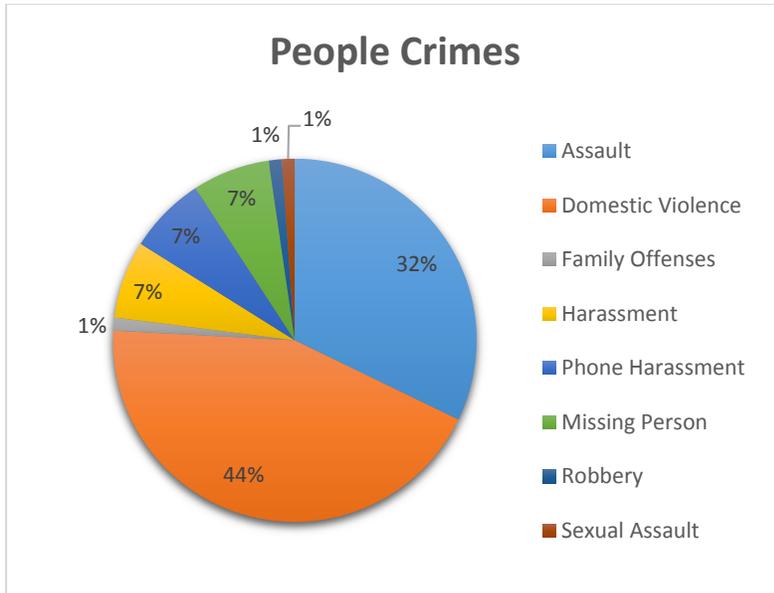

Of the 55 calls for service that the police department dispatched, 46 calls for service involved intoxicated pedestrians. In addition, a majority of these calls occurred this month, April, which we attributed to the warm weather. Please refer to the attached charts.

May Monthly Report

The Bethel Transit System and the City's Finance Department has submitted the monthly Budget Summary Billings, to DOT, for the months of July through February. Currently the State has reimbursed the City \$114,388.69 from the Federal/State Transit System grant. I'll be working on the March Budget Summary this coming week.

The ridership for the month of April has picked up. For the month of April there were a total of 1938 rides. Elders/Seniors (64years old+) 265 rides, who paid the regular fare, 78 rides for youth (3-14 years old), and 1595 rides to the general public. General public rides include; 6-10 rides per day for those going to and from work, 6-8 rides per day for those seniors (75+ years old) that have yearly passes, and the remainder are those that go to and from the hospital, post office, stores, and back home. The revenue for the month of April is \$2,850.00

Bus 437, purchased in 2008, is down with a bad motor. The City Shop isn't sure if it's worth fixing and they do they'll most likely have to replace the motor. A couple of years ago the City Shop replace the motor in Bus 436 and it cost between \$12,000 and \$15,000. And it was down for over a year. Bus 436, purchase in 2008, has over 137,000 miles on it and Bus 438, purchased in 2007, has 111,397 miles. The State's guidelines for replacement of bus is 5 years old and/or 100,000. Our newer bus, Bus 439, was purchased in 2014 and has over 85,000 miles. The City currently has two, 2015 and 2016, Federal/State grants for new buses. If the City Council approves them and the match amount.

The Transit System is currently running to routes; the Green Line runs Monday through Friday from 6:30am to 10:30am and 11:30am to 6:15pm., the Red Line runs Tuesday through Saturday 9-12 and 1-3.
