Amount of fiscal impact:		Account information:
NA	No fiscal impact at this time.	NA
	Funds in City Budget.	
	Requires funding in FY 2019 Budget.	

Summary Statement

The purpose of this Memorandum of Understanding is to utilize Tribal Transportation Program construction funds administered by Orutsararmuit Native Council ("ONC") to purchase and install LED streetlights along a section of boardwalk in Pinky's Park to make pedestrian travel safer. The City of Bethel will oversee the project, spend its money on the project, and seek reimbursement from ONC. The proposed lighting project will start along the trail near Akakeek and proceed along the boardwalk toward the baseball field. The exact light path distance and cost of the project cannot be determined, due to AVEC's practice of billing based on actual time and materials, but the City will do its best to obtain the most lighting for the funds available.
