

**ADDENDUM #4
RFP For Hauled Utilities Digitization**

This addendum is issued on the 6th day of October 2020 by the City of Bethel in answer to questions received by the Purchasing Agent. The issuance of this addendum DOES NOT change the proposal deadline date to October 19, 2020.

Question #1

Regarding the sample utility route sheets in the RFP documentation, what do the symbols (@, #, and %) mean and what do the numbers (200, 350, 650, etc.) correspond to?

The question is in regards to the samples seen below. The symbols correspond to the following:

- @ - Once a month
- # - Once every two weeks
- % - Twice a month

Handwritten numbers will only be seen on water route sheets. This denotes the amount of gallons that were delivered to that address. Typed numbers are usually the address number for that property.

AYAGINAR		AYAGINAR	
9414 Wed/Sat		#	9457 C
@ 9415			9458
@ 9419 B			9459
